

Offline Familiarization Workshop on Nanoelectronics & Nanophotonics

July 08 - 10, 2024

CNNP, IIT Madras

INUP-i2i

The Indian Nanoelectronics Users Programme - Idea to Innovation (INUP-i2i) is sponsored by the MeitY, Govt. of India. The main objectives of INUP-i2i are to train high quality manpower, open the national nanofabrication and characterization facilities to Indian academic and industrial Research & Development.

Level 1

FAMILIARIZATION

- Overview of INUP-i2i
- Micro/Nano Fabrication & Characterization
- Research work carried out at CNNP, IIT Madras
- Learn about the facilities at CNNP, IIT Madras
- How to access CNNP facilities through INUP-i2i

Level 1

Familiarization

Level 2

Hands-on

Level 3

R&D Projects

To Provide exposure and awareness about the current research activities at the Centre

To impart hands-on training in nanoelectronics to researchers from the other institutions

To provide support and expert guidance for project execution at CNNP, IIT Madras

Doctoral / Masters students and professionals in academia/industry interested in pursuing research in the area of nanoelectronics, NEMS, nanophotonics. Participation in level-1 workshop is mandatory to register for level-2 hands-on workshop to be scheduled later.
